WORLDWIDE LOVE AND PEACE (DÜNYADA SEVGİ BARIŞ)

Proje hakkında

Ortak Sayısı: 31

People also need human values like love and peace as well as nutrition, shelter and safety. This is primary target of being human. With this consciousness, we think human should be in peace first with own self and then other people in society. Disseminating and keeping these values in this global world will bring along world peace and serenity. Supporting these values from family to society and education is very important and essential for world peace. Starting off with the truth that human values like love and peace are gradually forgotten in our century and humanity need these values very much, we decided to create our project. Since youth forms society and education forms youth, we believe that these two values can be disseminated by means of education. So, we aim that we teach them by doing and living

and also lifelong learning. We, teachers, we will carry out our project by guiding our students. We will get to know worldwide well-known personalities on love and peace.

THOUSAND ARMED GREEN GIANT CAN RESCUE THE WORLD

(BİN KOLLU YEŞİL DEV DÜNYAYI KURTARABİLİR)

Proje hakkında

Ortak Sayısı:224

This is a United Nations project. We plan to do more activities in this project which we aim to reach at least five hundred people. We will learn and teach to use our resources efficiently, get rid of packages, protect animals and plants with our project which our students, teachers, parents, even grandparents attend.

HEDEFLER

Creating our awareness of nature conservation is our main goal. However, we also have other goals just as providing teacher-student-parent cooperation, transfering between generations, having knowledge about alternative energy sources, learning about natural nutrition, making an art with recycling, developing written and verbal expression skills and using technology accurately and effectively .

Traditions with changing technology

Proje hakkında

Ortak Sayısı:24

The theme of etwinning of this year is 'Cultural Heritage.' Traditions may differ between cultures. Each country has its own traditions. Even the developing technology keeps our traditions.

Teachers from different subjects can take part in this project and work on project activities together according to their own subjects and traditions using the latest approaches and metodhologies.

The project objective is to make a collaboration and cooperation with the new or experienced etwinnars from Turkey, Spain and other European countries using interdisciplinary method. It is aimed to make school teams and increase the participation of more teachers and students.

It gives opportunities for etwinnars to use 21st century skills, ensure digital literacy, share their experinces, learn new metotologies, use project-based learning, spread etwinning.

2016-2017

WEB 2.0 EDUCATION WORLD

Proje hakkında

Ortak Sayısı: 53

In our century technology is rapidly improving. Technology is everywhere in our daily lives, from our kitchen to office or school. So it must be in every fields of our students' school life and their education. As all of educators and parents know, children and young spend most of their time using digital tools like computer, laptop, smart phone… instead of studying their lessons and learning new things. This condition is a problem according to adults, of course.

Starting from this problem we would like to organize the time of students' spending on digital tools and to guide them to use these tools for education. so they won't waste time and will learn the use and language of digital technologies, to learn digital literacy and safe internet. And also our students' motivation, creativity and success in lessons will increase.

Students' age is 8-18. We will use Web 2.0 Tools, e-mail, Forum, Other software (PowerPoint, video, pictures and drawings), Project Journal, TwinSpace, Video conference, Virtual learning environment (communities, virtual classes, ...), Web publishing, Tools of creating content, interactive presentation, animations, avatars, cartoons, story, survey, e-magazine/book, photo-poster, word cloud, mind map, QR codes, augmented reality, online quiz, coding activities, digital wallpaper, smart phone apps, games and flashcards.

2015-2016

SİHİRLİ DOKUNUŞLAR İÇİN BEYAZ GÜVERCİN

Proje hakkında

Projemizle birlikte öğrencilerimiz, öğretmenlerimiz ve velilerimiz işbirliği içinde çalışarak birimden bütüne gitmeyi öğreneceklerdir. İlkokulda öğretmenimiz bizlere bir kelime söyler ve bu kelimeyle bir hikaye oluşturmamızı beklerdi. Projemizle; bizim de hedefimiz, A3 boyutundaki resim kağıdını (Sihirli dokunuşlar için Beyaz Güvercin) bölümlere ayırarak her bölüm ilgili proje ortaklarımız tarafından sihirli dokunuşlarla yardımlaşma ve dayanışmanın önemini kavramalarını sağlamak, emeğin paylaşıldıkça çoğalacağı fikrini benimsetmek olup;öğrencilerimizin üretken, becerikli,sosyal paylaşımcı ve sorumluluk bilincini geliştirmelerini sağlamaktır. Ülke genelinde; her ilden en az bir okulu dahil ederek yapılacak olan dokunuşları çok taraflı hale getirerek E-twinning projesinin adını duymalarını istemekteyiz. Ayrıca, farklı şehirlerimizde yaşamış olan Türk büyüklerinin tanınmasını sağlamak ve bu şehirlerimizde ki efsanelere tanık olmak istemekteyiz.
